There is only one month left until the Euromedlab Paris 2015. Then Paris will host a large delegation of the International specialists on laboratory medicine and medical biologists for the main happening in our profession of the year. Everything is ready to offer you the most outstanding scientific and social Programmes.

The multidisciplinary Scientific Programme includes:

- 1 outstanding Opening Lecture by Prof. J. Hoffmann, winner of the Nobel Prize in Physiology or Medicine;
- 4 Plenary Lectures, (Monday to Thursday, 11:45-12:30) from the world’s most renowned scientists;
- 17 Symposia covering the most attractive topics in laboratory medicine (Monday to Thursday);
- 8 Sessions organised by contributing Federations/Societies;
- 3 IFCC Sessions and 3 EFLM Sessions;
- 37 Educational Workshops (Monday to Wednesday, 14:30-18:00);
- 3 poster lunch sessions (Monday to Wednesday, 12:30-14:30) with enough time to visit the poster area as well as poster walk discussions.

There will be enough science for everyone during the day. In the evenings, the Seine and the bridges that cross it, the grand boulevards, the monumental squares, the museums and magnificent monuments, the charming streets of Montmartre will inspire you to visit Paris providing the frame for cultural and romantic imagination.

So, please do not hesitate to take part in this unique Lab Med event in Paris, the city of light, France.

The Congress Presidents,
Prof. Philippe Gillery Prof. Joelle Goudable Dr. Bernard Gouget

Co-President EML-JIB Exhibition
Dr. Francois Blanchecotte

More than 3087 persons already registered...a record for the Euromedlab at the deadline! Join your colleagues!

1289 posters are going to be displayed at the Congress, arranged by topics on Monday, 22 June, Tuesday, 23 June and Wednesday, 24 June.

In order to encourage discussions about posters, the poster Presenter must be at the assigned poster panel from 13:00 to 14:00. Poster walking tours will also be organised from 13:30 to 14:30.

**Satellite Meetings**

**pre Congress Meeting**

*6th International Symposium « Critical care testing and blood gases »*

**First Symposium « Alain Feuillu »**

18th - 19th June, 2015
Convention Center, Versailles, France

**post Congress Meeting**

**HbA1c and management of diabetes mellitus in the 21st Century**

Reims, France – June 26th, 2015
In cooperation with Société Française de Biologie Clinique (SFBC)

**State of the art in the biology of trace elements and vitamins**

Paris, France – June 26th, 2015

For more information, please visit the website

Don't leave Paris until...

**Visit the Mona Lisa at The Louvre**

The Louvre is one of the most iconic art galleries and museums in the world. Famous for its glass pyramid façade, it was also the setting for the Hollywood blockbuster The Da Vinci Code, so surely it's worth a visit aside from its art history. Feast your eyes upon the much debated Mona Lisa and admire the Renaissance masterpieces that adorn its walls.

**Ride the Bateau Mouche**

There's nothing quite like seeing Paris from a boat on the Seine—and there's no lack of boats to choose from. See Paris's graceful bridges up close along with the city’s most famous landmarks on a relaxing 2 to 4 hour boat ride.

**View from the Eiffel Tower**

Crowded though it may be, the Eiffel Tower is still Paris's most beloved monument.

**Ride the Métro**

As the second busiest metro system in the world after Moscow, the Métro is a defining feature of Paris. The Art Nouveau architecture and signage across the city is something to look out for, so travel in comfort across the city through the interlinking underground passages. What’s more, you even get mobile phone signal!

**Visit the Centre Pompidou**

Centre Pompidou is a must-see not only for its ranking as one of the most important galleries of modern art in Europe, but for its impressive – and controversial – architectural design. Over 50,000 works of art are on display, by artists from Kandinsky, Matisse, Miró and Picasso. On the fourth and fifth floors of the Centre Pompidou, you can explore the Musée National d’Art Moderne and the Foundation Louis Vuitton as well.

**Eat a Macaron**

The weather in June is mostly warm, dry and sunny. The average temperature at this time of year rises up from 16°C on June 1st up to 18.5°C by June 30th. With so many days receiving some type of precipitation, it’s highly likely you’ll experience a shower, so be prepared and pack an umbrella.
